# Dear Future Law Student

Welcome to Megalaw **30-Day Foundation Batch** — a unique opportunity to build solid fundamentals before your intensive CLAT/AILET preparation begins. Most students make a critical mistake: they start intensive coaching without proper foundation. The result? They waste 3-4 months relearning basics, struggle with advanced concepts, and score 30-40 marks lower than their potential.

**We're solving this problem.** This isn't a demo. This isn't partial coverage. This is 30 complete days of deep foundation teaching covering all core concepts you need for CLAT and AILET success. And it's completely FREE.

**Why? Because we're confident in our teaching quality, and we want you to experience it firsthand before committing to our comprehensive batch.**

**Warm regards,**

Manav Sir & Team MegaLaw & MegaGK

# The Problem Most Students Face

## Traditional Approach ❌

- Students start intensive coaching without foundation
- Month 1-3: Struggling with basic concepts
- Month 4-6: Finally understanding fundamentals
- Month 7-12: Actual advanced learning
- **Result:** 3 months wasted, lower scores, regret

## Why This Happens:

- No proper foundation before intensive prep
- Coaching covers 50 topics in 20 sessions
- Teachers rush through material
- Students hear about concepts but don't truly grasp them
- Main batch feels overwhelming from Day 1

## The Megalaw Solution ✓

- **NOT Coverage** → **DEPTH**
- **NOT Memorization** → **UNDERSTANDING**
- **NOT Rushing** → **FOCUSED LEARNING**
- **NOT Passive Lectures** → **INTERACTIVE SESSIONS**

## Our Philosophy:

30 focused sessions

- 1-2 core concepts per session
- Teachers have time to teach properly
- Students have time to understand
- Interactive learning with guided problem-solving
- HOW TO THINK approach for permanent thinking patterns

**Result:** Start main batch confident, save 2-4 months, score 30-40 marks higher

## 4 Comprehensive Sessions

01

---

### How to Read Actively

- Pre-reading, during reading, post-reading technique
- FROM WHERE comprehension questions come
- Deep dive: 1 complete passage methodology
- Live practice applying the method

02

---

### Vocabulary Strategy

- Strategic learning (not memorization lists)
- Root words and word families
- 20 core words with legal context
- Using words in exam-style sentences

03

---

### Complex Passages & Grammar

- Handling difficult academic/legal passages
- Grammar fundamentals for CLAT/AILET
- Para-jumbles and paragraph questions

04

---

### Overall Understanding & Application

- Integrating reading, vocabulary, and grammar skills in full-length passages
- Practicing question-type identification and elimination strategies
- Developing time management and accuracy under exam conditions
- Building long-term reading confidence for any CLAT/AILET passage

These sessions focus on building reading comprehension skills that are essential for success in CLAT and AILET. Rather than memorizing vocabulary lists, you'll learn strategic approaches to understanding complex legal and academic texts. The active reading methodology will help you identify where questions come from and how to approach them systematically.

# Legal Reasoning

## 4 Foundation Sessions

### What Is Law & How to Think Like a Lawyer

- Law as system of rules and problem-solving
- FROM WHERE law comes (hierarchy)
- HOW TO read legal passages
- Deep dive: Article 14 (Right to Equality)

### Constitution & Interpreting Articles

- Understanding the Constitution as living document
- HOW TO interpret any constitutional article
- Deep analysis of 1 core article

### Criminal Law Basics

- Purpose and philosophy of criminal law
- HOW TO read criminal cases
- Deep dive: 1 crime (Theft - IPC 378)

### Contract Law & Tort Fundamentals

- WHAT IS a contract and HOW TO read it
- Tort law basics
- Analyzing 1 sample contract

Legal Reasoning forms the core of CLAT and AILET preparation. These four sessions will teach you to think like a lawyer rather than memorize legal provisions. You'll learn the fundamental principles of constitutional law, criminal law, and contract law through deep analysis of specific articles and cases. This foundational understanding will make your main batch preparation significantly more effective.

# Analytical Reasoning

## 5 Systematic Sessions

### What Is Logical Thinking?

Generic puzzle-solving methodology, HOW TO set up any puzzle systematically, Deep dive: 1 linear arrangement

### Blood Relations Deep Dive

Understanding family logic, Drawing family trees, 8 practice problems on one type

### Direction Sense & Visualization

Spatial logic fundamentals, Creating visual grids, 5 direction problems

### Coding-Decoding & Patterns

Pattern recognition (not memorization), 3 types of coding with examples, Students discover patterns

### Syllogisms & Advanced Deduction

Logical deduction from premises, VALID vs INVALID reasoning

Analytical Reasoning is where most students struggle because they try to memorize tricks instead of understanding logic. These five sessions will build your logical thinking from the ground up. You'll learn a systematic approach to solving any puzzle, regardless of its type. By focusing deeply on each puzzle category with multiple practice problems, you'll develop the pattern recognition skills needed for exam success.

# Critical Reasoning

## 4 Essential Sessions

### 1 What Is An Argument?

Premises → Logic → Conclusion structure, HOW TO identify argument structure, Breaking down 1 complete passage

### 2 Assumptions & Inferences

WHAT IS an assumption (unstated premise), HOW TO find hidden assumptions, Testing logical gaps, 8 practice arguments

### 3 Strengthening & Weakening

Adding evidence to strengthen, Finding contradictions to weaken, 8 practice arguments each

### 4 Flaws, Paradoxes & Conclusions

Identifying logical fallacies, Resolving contradictory statements, Drawing valid conclusions

Critical Reasoning is often the most underestimated section, yet it's crucial for both CLAT and AILET. These sessions will teach you to dissect arguments systematically, identify hidden assumptions, and evaluate logical strength. You'll practice with real argument passages, learning to strengthen or weaken positions through evidence analysis.

#### Why Critical Reasoning Matters

Critical Reasoning constitutes **47% of AILET** and is crucial for CLAT success. This section tests your ability to analyze arguments, identify assumptions, and evaluate evidence - skills essential for legal thinking.

# Current Affairs + General Knowledge

## 4 Strategic Sessions

1

### How to Build Newspaper Habit

- FROM WHERE CA questions come
- HOW TO read newspaper for CLAT
- Note-taking format
- Live demonstration: Reading today's paper

2

### Static GK & Connections

- Static GK vs Current Affairs
- Deep dive: Indian Polity (President, PM, Parliament)
- Connecting to current news

3

### History & Geography Foundations

- Major historical periods
- Indian geography essentials
- How they appear in current affairs

4

### Month-End Deep Dive

- 3-4 biggest November + December stories
- Complete analysis (not just facts)
- 10 potential questions per event

Current Affairs and General Knowledge form a significant portion of CLAT and AILET. These sessions will transform how you approach newspapers and current events. Instead of passively reading, you'll learn to actively connect current affairs with static GK, identify question patterns, and build a sustainable daily reading habit. The live newspaper reading demonstration will show you exactly how to extract exam-relevant information efficiently.

# Quantitative Techniques

## 2-3 Focused Sessions

$\frac{f}{dx}$

### How to Think About Numbers

- Purpose of quantitative section
- Problem-solving approach
- Deep dive: Percentages concept
- 10 practice problems

### Ratios & Data Interpretation

- Understanding relationships
- Visual thinking (not just formulas)
- 10 ratio problems + 1 complex table analysis

Quantitative Techniques in CLAT and AILET doesn't require advanced mathematics, but it does require clear conceptual understanding. These sessions focus on building number sense and logical problem-solving approaches rather than formula memorization. You'll learn to think visually about ratios and percentages, making data interpretation questions much more manageable. The emphasis is on understanding relationships between numbers and developing efficient calculation strategies.

# Registration Requirements

## Who Can Join?

- Class 11th, 12th appearing, or 12th passed
- Interested in CLAT 2027 or AILET 2027
- Committed to attending 20+ sessions (out of 30)
- Willing to engage in daily practice
- Have laptop/tablet + internet connection

### No Prerequisites

Even if you're starting from scratch, this foundation batch is designed for you. We build everything from the ground up.

## What You Need

- **Device:** Laptop, tablet, or smartphone with stable internet
- **Time Commitment:** 2 hours for live classes + 1-2 hours daily practice
- **Mindset:** Willingness to learn HOW TO THINK, not just memorize
- **Engagement:** Active participation in interactive sessions

# Frequently Asked Questions

## Is this really completely free?

**A:** Yes. 100% free. No hidden charges, no credit card required, no catch. Register, attend, learn. That's it.

## Why are you offering this for free?

**A:** Two reasons: (1) We want you to experience our teaching quality before committing ₹50,000 for the main batch, (2) We're confident that students who complete foundation will want to continue with us.

## What if I can't attend all 30 sessions?

**A:** Recordings available within 4 hours of each session. But live classes are more interactive with real-time Q&A. We recommend attending live whenever possible.

## I'm still in Class 11. Is this for me?

**A:** Absolutely! Starting early gives you a 3-4 month advantage. Build foundation now, continue with main batch in January 2026.

## Is this for CLAT or AILET?

**A:** Both! We cover both exams completely. By December 31, you'll understand which exam suits your strengths better. Some students even prepare for both.

## Will I be ready for CLAT/AILET after this?

**A:** This is FOUNDATION, not complete preparation. You'll learn HOW TO APPROACH each section. Main batch (January 2026) covers advanced concepts and complete syllabus.

# More Questions Answered

**How much time do I need to study outside class?**

**A:** 1-2 hours daily for practice and revision. Sessions are interactive, so self-study load is manageable.

**Are classes on weekdays and weekends?**

**A:** Yes. Weekdays: 6:00-8:00 PM ( Mon-Sat) (after school).

**What if I have board exams during this period?**

**A:** We reduce class frequency during typical pre-board exam weeks (mid-December). Plus, recordings available for later review.

**Can I ask questions during class?**

**A:** Absolutely! Interactive learning means you can ask questions, discuss approaches, and solve problems with teacher guidance.

**After foundation, what's the next batch cost?**

**A:** ₹70,000 regular. Foundation students will get flat ₹21,000 discount = ₹49,000 + Free GK Mastery Course (₹12,000 value).

**What if I don't want to join the paid batch?**

**A:** No obligation. You still got 30 days of quality education for free. But we're confident you'll love it and want to continue.

**Are there any refunds?**

**A:** It's free, so no refunds needed. For the paid batch (January 2026), we have a 7-day trial period with full refund if you're not satisfied.
